

Can I import my data myself?

Last Modified on 12/04/2018 2:04 pm EST

Yes, you can. Follow the instructions in the FAQ above and fill out our Importer Spreadsheet. Save the file, then, back on Tools > Import Data, browse for your file and import it. Our Importer is often very finicky, so if you get any errors, please send the file to us at Imports@JackrabbitTech.com and we will import the file for you.
