

# Search Families Report

Last Modified on 06/30/2020 5:06 pm EDT

[Watch a \(2:28\) video tutorial on Search Families](#)

*Families > Search* is an extremely powerful search tool and allows the user to select from a huge variety of family search criteria. All of the search criteria are found in the [The Family Record](#) on the various tabs.

## Business Scenario

Use the search criteria *Has credit cards that are missing or expired* to find families who are set up for credit card payments, but have a problem with their card. This will search for families with an ePayment type of 'Credit Card' whose cards are missing, currently expired, or expiring next calendar month.
