

Delete a Student

Last Modified on 06/21/2019 1:13 pm EDT

See a short (0:49) video tutorial on Adding, Editing, or Deleting Student Information - **Delete a Student**

A student can not be deleted from a family if they are enrolled in a class. In order to delete a student, the student must first be **dropped** from all current classes. Once dropped, click the **Delete** button on the *Student* page to delete the student from the family.
