

How do I hide certain classes on my website, web registration form, and the parent portal?

Last Modified on 12/04/2018 2:10 pm EST

You can control whether or not a class is displayed:

- On your Website (in Class Listings Tables)
- During Web Registration (through the Web Registration Form)
- In the Parent Portal

These settings are found on the *Summary* tab of the *Class* record:

[Return](#)[Save Changes](#)[Delete](#)[Class Roll](#)[Enroll Student](#)[Email/Text Class](#)[Enter Absences](#)[Post Class Transactions](#)[Summary](#)[Enroll List](#)[Drop List](#)[Absences](#)[Makeups](#)[Wa](#)Class Name Location [?](#) Room Session [?](#)Class Start Date [?](#) End Date Description Display on Website [?](#)Allow Web Registration [?](#)Allow Portal Enrollment Allow Trial Enrollment [?](#)Class ID

The most efficient way to hide a group of classes is by using **Edit All Classes** from the *Classes* menu. Use the *Search Criteria* to select only those classes that you wish to hide, for example a specific session of classes or all classes that have a specific *Category 1* value.

After submitting your criteria selections click **Show All** to display all pages and then use the Global Change (yellow) area to change the *Display on Website*, *Allow Web Registration*, and *Allow Portal Enrollment* settings to **No**. Remember to **Save Changes**.
