

My customers don't understand what Cat1 or Cat2 means - how can I hide that?

Last Modified on 02/15/2019 5:40 pm EST

Cat1 and *Cat2* cannot be hidden from your customers. However, they may be relabeled to a more meaningful title such as Program, Genre, Sub-Program, Level, etc.

Go to **Tools > Online Web Registration > Settings > Class Search Settings > Class Search/Filter Settings** to add labels.
