

# How can I post some specific "documents" inside of the Portal?

Last Modified on 01/14/2019 2:39 pm EST

On the News and Announcements page (which your customers see as soon as they are logged in) you can link to various pdf documents that you create (such as Recital Requirements, Newsletters, etc). For instructions on using images and links in the News and Announcements page, see the [Communication in the Parent Portal](#) section.
