

Can I hide some of the columns shown in the Find Classes page (list of available classes)?

Last Modified on 02/04/2019 10:01 am EST

The order of columns going across the page is hard coded and cannot be changed. You can hide the *With* column by deselecting the Show Instructor Nickname setting in your Parent Portal settings. The Class Enrollment Openings badge in the *Class* column, and the class Start date in the *Session/Start* column can also be hidden. Go to **Tools > Parent Portal > Settings** and scroll down to the 'Class Enrollment Settings' area and make your selections there. The other columns can not be hidden or removed.
