

Why can't I have the system post a REGISTRATION Fee during a portal enrollment?

Last Modified on 01/14/2019 2:44 pm EST

Registration fees (also called Annual Fees, Session fees, semester fees, etc) are initially posted/charged upon a customer's first registration with your organization (when they registered for the very first time). Subsequent or renewal Annual Fees are posted manually in your database by using **Transactions > Post Annual Fees**.

For more details, refer to [Post Annual Fees](#).
