

What/Where are my Category Codes (Cats)?

Last Modified on 01/09/2019 12:35 pm EST

Category Codes (Cat1,Cat2,Cat3) are set up by you. Go to **Tools > Edit Settings > Drop-down Lists**, and create your Categories (and Sessions, etc). Then assign each class the Categories that are applicable to that class. Cat1's are also your main Revenue buckets. For complete details, reference our [Customize Drop-down Lists](#) page.
