

How do I make each Event Type a different color on the Calendar?

Last Modified on 10/15/2020 1:13 pm EDT

Go to the **Events** (menu) > **List Event Types** and click on the **Event Type** you would like to modify. On the **Summary** (tab) scroll down to the **Display on Calendar** (section). There, click the crayon icon to assign a color for that *Event Type*.
