

# I am using the trial version of Plivo. How do I send a test text message?

Last Modified on 01/14/2019 3:07 pm EST

If you are still using a Plivo trial version, you can send a test text message to the phone number you used when you created your Plivo trial. In *Tools > Edit Settings > Text Messages > Send Test Text Message*, enter the phone number you used for your Plivo trial setup and click **Send Test Text Message**. *Note: the option to send a test text is only available to users while in trial mode in Plivo. Add a credit card to Plivo to create a standard account for full texting capability.*

**Text Messages**

Activate Text Messages:  Your Plivo account is in Trial mode and only a test text message can be sent (see below). To have full texting capability, enter a credit card for your Plivo account.

**Plivo Account Information**

Account Type: Trial [Go to Plivo Account](#)

Plivo Auth ID: MAZDYXM2VKODYMYMTIXNT

Remaining Balance: 1.46

Auto Recharge: No (messages will fail to send when account is depleted)

Text From Number: (330) 946-2753

**Send Test Text Message**

Enter Phone Number to Send Text:  (Your Plivo account will be charged for sending a test text message)

You can only send a test text message to the cell phone number used when setting up the Plivo account. This is the cell phone number which received the Plivo verification text message.
