# If I move a family to the Lead File does it impact my enrollment reports?

Last Modified on 01/14/2019 3:10 pm EST

Moving a family or group of families to the Lead File DOES impact enrollment reports. The enrollment records for families in your Lead File are NOT included in the enrollment reports in your main database. We recommend that you run **Reports > Enrollment Detail** before moving families to the Lead File and export the report to Excel for future reference.
