Does Jackrabbit integrate with any CRM systems?

Jackrabbit does not integrate with any customer relationship management systems.

When emails are sent to families through Jackrabbit, a copy of the email is saved to the *Family* record > *Misc* tab > *View Sent Emails* for a period of 365 days.

You are able to easily export the contact information from your Jackrabbit database using the *Email Listing Report* (from the *Reports* menu > *Families/Students* category). From there you can import your data into an email marketing service such as Constant Contact or MailChimp.
