I'm confused about how to set up ePayments and how to process them.

Last Modified on 02/18/2019 9:00 pm EST

A great place to start is the **Get Set Up for ePayments** and **Understand ePayments** Help topics.

Our **ePayment Resources** page pulls together all of our available education resources for ePayments - a one stop shop!

If you need additional help, click the Help button in your database to contact a member of our Support team or contact our ePayments Team directly at **epayments@jackrabbittech.com**.
