

Is it possible for a family to have no credit card marked as the Primary Card?

Last Modified on 12/04/2018 2:12 pm EST

When a credit card is added to a family's Billing Info tab it is automatically assigned as the *Primary Card*. Additional cards can be added (depending on your settings) and the *Primary Card* status can be reassigned to one of the other cards. It is not possible to have either no Primary Card or multiple Primary Cards when there is credit card information for the family.
