

Can Jackrabbit split billing between two contacts or allow for billing two credit cards in one family?

Last Modified on 07/24/2019 12:52 pm EDT

Jackrabbit Care allows you to split billing between 2 or more parties. See [3rd Party Agency and Split Family Billing](#) for more information.

While Jackrabbit cannot split billing between contacts within a family, you are able to maintain up to three credit cards on file for each family. To allow this option, refer to [Accepted Credit Cards & Multiple Cards on Family](#) to make sure that you have the appropriate settings.
