How can I view / print a family's registration? How can I view / print a registration to show a parent they e-signed our policies?

Last Modified on 12/04/2018 2:12 pm EST

If the parent registered via the portal or web registration and provided an email address, a copy of the registration is kept as history in Jackrabbit. View past registrations by going to the specific **Family Record: Misc.** tab. Click **View Registrations**. Select the **View** link next to any listed registration to view / print.
