

Hours of Operation - An Overview

Last Modified on 08/07/2019 11:48 am EDT

Hours of Operation is a great way to ensure that your students will only be scheduled in classes during the time your childcare center is open.

Choose the earliest and latest time a student should check in or check out for each day of the week. All online registrations must fall within these Hours of Operation, as well as any scheduling by you or your staff in the database.

Continue through our Help section, [Hours of Operation](#), for assistance with setting up, editing, and deleting Hours of Operation.
