

# Tuition Rate Examples

Last Modified on 06/11/2019 5:01 pm EDT

If you are setup for Class-Based billing, you can skip this section and proceed to the next step.

A Student may be scheduled into one or more classes and have one or more rates assigned. Let's look at some examples.

## Example 1

Riley Church is scheduled for Preschool and Summer Camp. A rate is assigned for each one.

*Annotations:*  
- A yellow callout points to the 'Tuition Rate' column header with the text 'Tuition Rate for each class'.  
- A blue callout points to the 'Through' date field with the text 'Through date is not needed unless the rate should expire. No tuition will post to the Student after this date passes.'

## Example 2

A Tuition Rate split between multiple parties.

The same rate is added 2 times using the **Add Student Tuition** button. Each time, it is assigned to a different payer with their allocation percentage entered.
