

Allow Online Registration to a Wait List

Last Modified on 12/13/2018 5:18 pm EST

To allow a student to register online to a wait list for a full class:

1. Point to **Tools** and click **Online Web Registration**.
 2. From the left menu, click **Settings**.
 3. Make sure that *Allow Waitlist When Class Full* is set to **Yes**. This allows full classes to display in your organization's class listings table with a *WaitList* link instead of a *Register* link. When a parent/student clicks the *WaitList* link, Jackrabbit places the student on the *Wait List* for the class the registrant has chosen.
