

Immunizations / Medical Requirements - An Overview

Last Modified on 12/20/2018 1:47 pm EST

Jackrabbit tracks a student's immunization and medical requirements on a per student basis. Each immunization or requirement can be tracked by date and is color-coded to quickly show complete, overdue, or due in 30 day items.

Immunizations for each student are maintained on the Student's **Medical** tab and can be reported on using **Reports > Immunization/Reqs Report**. See [Student Reports](#).

*Working with Immunizations / Requirements is a user permission. Use **Tools > Manage Users & Permissions** to update these.*
