

# Checkup Calls and Training Options

Last Modified on 11/04/2020 4:52 pm EST

Been using your Jackrabbit database for 6 months or more? It might be time to schedule a Checkup Call, to be sure you are making the most of all that we have to offer!

A Checkup Call, also referred to as a database review, is a 45-minute telephone conference call with a Jackrabbit Support Representative. The call is accompanied with a screen share from within your database and is totally customized to fit your needs. You can ask questions and we will demonstrate the answer for you live!

## What will you gain from this call?

- An in-depth review of your database to ensure you are getting the most from the software.
- Guidance on powerful features that may be being overlooked.
- A review of your daily and monthly processes with Jackrabbit Best Practice recommendations.

Take advantage of this opportunity to help you improve your use of Jackrabbit and maximize your potential!

---

## Other Training Options

### Jumpstart Coach Program

Jackrabbit is dedicated to setting your database up for success. You will be assigned a Jumpstart Coach to walk you through initial set up. Click [here](#) to learn more.

### Webinars - Register Live or Watch On-Demand

Live and On-Demand webinars covering Jackrabbit's hottest topics! Click [here](#) to learn more.
