Store Item Tax Report

Last Modified on 06/05/2019 8:46 pm EDT

The **Store Item Tax Report** displays a report of total sales on items.

From the *Reports* menu > *Store*, select *Store Item Tax*. From the *Report Type* drop-down, select **Item Tax**.

⭐ Evaluate net sales for a selected time period.

⭐ Report on sales tax for a given month.

⭐ Analyze discounts given on merchandise.

Business Scenario

Your accountant would like to know how much sales tax you collected for the previous month (e.g., April 2019). Run the Store Item Tax Report using the *Date Paid From* as **4/1/19** and *Through* as **4/30/19**. Export the report to Excel and save. You can then email your accountant with the report attached.

Search Criteria

Use the Search Criteria to narrow the report results:

- If you have multiple locations in your database, you have the option to look at items based on the location of where the item was sold using the *Location* drop-down.
- Choose additional information you would like to filter the results by such as *Vendor, Category 1, Transaction Date,* etc.

Leaving a criteria selection blank is the same as saying 'all'.
