Staff Availability - An Overview

Last Modified on 06/05/2019 8:45 pm EDT

You have the option of adding availability (standard hours worked) and exceptions (blocks of time that override standard hours - i.e. vacation, etc.) for instructors. The Availability / Exceptions feature prevents the necessity of creating empty 'place holder' classes to indicate when an instructor is available by adding visual color-coding on the *Day View Calendar*. See **Calendars / Schedules.**

A user must have the *Availability* permission in the *Staff* section to see the *Availability* tab. See **System Management: Manage Users** for more information.

*The Availability tab works only in combination with the **Day View calendar** and does NOT impact the **Time Clock** feature.*
